

Sinclair's phony and biased program tonight about Kerry and Bush is an abuse of their broadcasting licenses. It is not news or a documentary but a blatant partisan attempt to influence the Presidential Election. The airwaves belong to us the public, not to Sinclair which only has a license and is supposed to serve the public interest. Unlike a newspaper which owns and sells a product, Sinclair, despite its attitude, does not own the airwaves and should have its licenses revoked for this and other misuse of its public trust.
